

EMAIL AUTOMATION

TEAM : GENESIS

Rolls

- Vaishnavi – Scrum master/Planner
- Shravani – Developer
- Sakshi –Developer
- Nirali – Developer
- Gayatri – Developer
- Mansi – QA
- Mohini - QA

Features:

- User Login
- Email Management
- Send Email
- Email Templates
- Reports
- Smart Email Scheduler
- AI Email Writer
- Email Reminder System
- Follow-up Email Automation
- Bulk Email with Personalization
- Smart Spam Checker
- Email Analytics Dashboard
- Attachment Manager
- Email Approval Workflow
- Contact Groups
- Get Data From Database
- Draft Management
- Search Email
- Exit System

User Login

- The system shall allow users to log in using:
- Gmail ID
- Gmail App Password
- **Features**
- User Authentication
- Secure Login
- Login Validation

Email Management

- The system shall provide email management options.
- **Features**
- Create Email
- View Emails
- Delete Email

Send Email

- The system shall send emails using Gmail SMTP Server.
- **Features**
- Receiver Email
- Subject
- Message Body
- SMTP Authentication
- Email Delivery
- Success/Error Message

Email Templates

- The system shall provide predefined templates.
- **Templates**
- Welcome Email
- Offer Email

Reports

- The system shall generate email statistics.
- **Reports**
- Total Emails Sent
- Success Rate

Smart Email Scheduler

- Schedule emails for a specific date and time
- Automatically send them at the scheduled time

Email Reminder System

- Reminds the user if an important email has not been send yet
- Shows pending scheduled emails

Follow-up Email Automation

- if there is no reply within 3 or 7 days, automatically send a follow-up email.

Bulk Email with Personalization

- Read names and email IDs from a CSV/Excel file.
- Example:
 - "Hello Rahul,"
 - "Hello Priya,"
- Same template, personalized for each recipient.

Smart Spam Checker

- Detects spam-like words before sending.
- Gives a quality score (e.g., 90/100).

Email Analytics Dashboard

- Total emails sent
- Successful vs. failed emails
- Daily/weekly/monthly statistics

Attachment Manager

- Warns if the email says "attached" but no attachment is selected.
- Suggests recently used files.

Email Approval Workflow

- Draft → Review → Approve → Send
- Useful for office communication.

Contact Groups

- Create groups like HR, Team, Clients, Students.
- Send one email to the entire group.

Get Data From Database

- Retrieve saved contacts
- View sent email history
- View scheduled emails
- Search emails by recipient or subject
- Display email reports
- View draft emails
- Retrieve email templates
- Filter emails by date
- Show successful and failed email records

Draft Management

- Save Draft
- View Draft
- Edit Draft
- Delete Draft
- Send Draft Later

Search Email

- Search by Receiver
- Search by Subject
- Search by Date
- Filter Search Results

Exit System

- The system shall allow users to exit safely.
